

NAME

---

1. What is an amphibian?

---

---

---

---

2. What do we call the study of reptiles and amphibians?

---

3. Name some characteristics of frogs.

---

---

---

4. Name some characteristics of toads.

---

---

---

---

5. Frogs lay eggs in a \_\_\_\_\_.

6. Toads lay eggs in a \_\_\_\_\_.

7. How long does it take for frog eggs to hatch?

---

---

8. What do tadpoles eat?

---

---

9. What happens to a tadpole's gills?

---

---

10. Tell what happens to the tadpole after 6-9 weeks.

---

---

---

---

11. How long does it take for a tadpole to be fully developed?

---

---

---

12. What color can a frog's eyes be?

---

---

13. What shapes can a frog's pupils be?

---

---

14. Describe how most frog's tongues work.

---

---

15. What happens to a frog's eyes as it eats?

---

---

16. Do frogs have teeth?

---

---

17. What do frogs use their teeth for?

---

---

18. Where are frog's ears located?

---

---

19. What types of feet do frogs have?

---

---

20. Why is a frog's skin so special?

---

---

21. Why do frogs shed their skin?

---

---

22. What are some of the enemies of frogs?

---

---

23. What do many frogs rely on to avoid being eaten by predators?

---

---

24. Read over the information. What are two things that you learned and found interesting about frogs.
